

Yogesh Patel

Currently I work as a 'Systems Developer (ICT)' in the social housing sector. My current role involves developing new systems as well as helping the business to understand the trends in the sector. I am Bachelor of Science with Mathematics as my main subject. I believe that by working together to achieve a common goal and creating a culture of teamwork, most things are possible. I am always keen to help the community wherever I can.

Previously I've been a parent governor in my daughter's old school. I've also been actively participative in the 'Parents Forums' in my daughter's primary school. Currently my daughter is in Cavendish school.
